WEYLER BUTCHERIES

His Work of Extermination Has Already Begun.

FIFTY-ONE PRISONERS SHOT.

Sorrow Reigns at the Junta Headquarters in New York City—Palma Contrasts Rights Accorded Captured Spaniards by the Patriots—Spain Offers Cuba Home Rule—Liberty Demanded.

NEW YORK, Sept. 16.—Almost every prominent Cuban in the city have called at the junta headquarters in New street to discuss the reported execution of the 51 prisoners confined in the Cabanas fortress and Morro castle. At times the rooms were crowded, and much feeling was displayed by the members and visitors. While some were inclined to believe the report exaggerated, others were of the opinion that General Weyler had begun the threatened policy of extermination.

Thomas Estrada Palma, head of the junta in this city, said: "It is sad and heartrending for men who love liberty and are sacrificing their lives for it to see that at the very moment when the European nations are intervening in order to protect the Spaniards and would not permit the Turks to shoot any Christians, here, in free America, and at the very doors of the United States, which rightly consider themselves protectors of the rights of men, prisoners of war are publicly and daily shot in Havana. Yesterday's cable news informs us of a butchery of 51 at a time."

"This contrast is so much the more incomprehensible and shocking because the Cubans have an organized government of their own and a fighting army of more than 50,000 men, which, although able to take retaliatory measures, dealt with the war prisoners they captured in a humane and generous way and set them free unconditionally."

Colonel Sanguilly was of the opinion that General Weyler was trying to give the Spanish authorities a pretext to recall him. "He sees," remarked Colonel Sanguilly, "that it is useless to attempt to crush the rebellion, and he wants to maintain his reputation."

TIME FOR ACTION.

The Killing of Charles Govin Being Thoroughly Investigated.

WASHINGTON, Sept. 16.—The state department has taken steps to have a thorough investigation made of the circumstances surrounding the killing of Charles Govin, a young American, accompanying the Cuban revolutionary army to the capacity of correspondent for a Florida newspaper.

Affidavits procured by counsel for the family of Govin go to show that while he was with a force of rebels under Major Valencia at Corredas, near Havana, last July, a strong force of Spanish troops was encountered and Govin, who was unarmed, and, it is asserted, was noncombatant, surrendered to the Spanish colonel. It is alleged that although he was supplied with an American passport and papers to establish his newspaper connection, he was executed on the day following his capture without an opportunity to claim and exercise his rights under treaty as an American citizen.

Consul General Lee will endeavor to ascertain all of the facts as the basis for further action by the state department directly through Minister Taylor, but the work is necessarily slow, as is the case in many such affairs, because of the difficulty experienced in securing reports of the facts when the killing occurs outside of larger towns.

SPAIN OFFERS HOME RULE.

The Insurgents Will Accept of Nothing but Liberty.

JACKSONVILLE, Fla., Sept. 16.—Spanish Consul Solis of Florida, claiming authority from Spain, is reported to have made a proposition to J. A. Huau, of the Cuban junta, and generalissimo of the Florida expedition to Cuba, to the effect that the mother country would grant home rule to Cuba if the patriots would lay down their arms and cease hostilities by Nov. 1. Mr. Huau is reported to have said that he was satisfied the junta would not accept the proposition, as it felt sure of securing complete independence within six months.

"If such a proposition had been made a year ago," said Mr. Huau, "it would have been gladly accepted, and all wrongs under which Cuba has suffered would have been forgiven, but it is too late now. The blood of too many Cubans has been spilled in a cause to forsake which would be sacrilegious."

Mr. Huau will present the proposal to the junta. Both men refuse to admit that such a proposition was under discussion, but the story is vouched for by a prominent Cuban, who says that he overheard the discussion after Consul Solis had formally presented the document. Cubans here feel certain that Spain's efforts to conquer Cuba will soon cease.

SIX SEAMEN DETAINED.

They Will Be Asked to Explain the Doings of the Laurada.

PHILADELPHIA, Sept. 16.—The steamer Gurley, from Port Antonio, Jamaica, arrived yesterday afternoon, and as soon as the vessel was moored at her wharf customs officers boarded her and detained six seamen, who are alleged to have sailed on the alleged filibustering steamer Laurada, when she last left Philadelphia.

The men will be kept in custody for

the purpose of appearing as witnesses against Captain Murphy of the Laurada, who is under arrest at Wilmington, Del., for alleged violation of the neutrality laws. The captain will be given a hearing in that city on Saturday.

Doings of the Laurada.

WILMINGTON, Del., Sept. 16.—It has been ascertained that in depositions made 14 of the crew of the Laurada have admitted that on her last trip from Philadelphia she stopped at Barnegat and took on a cargo of boxes and a party of men. The contents of the boxes and the nationality of the men was not known, nor was their destination. The men and cargo were taken to Navassa island in the West Indies and there transferred to a steamer, the name of which had been obliterated.

REDUCED THEIR OWN WAGES.

Pittsburg Miners Will Work For Fifty-Four Cents Instead of Seventy.

PITTSBURG, Sept. 16.—The railroad coal miners of the Pittsburg district met here yesterday to consider the advisability of voluntarily reducing the mining rates as a means of retaliation on the nonunion miners, who have been working at rates lower than the district price, which is 70 cents per ton.

Resolutions were almost unanimously passed which bind the organized miners to voluntarily reduce their own wages for the sake of uniformity from 70 cents to 54 cents per ton, the price now paid by the New York and Cleveland Gas Coal company.

The resolutions also authorize the officers of this district to meet any further reduction the New York and Cleveland Gas Coal company may make. That company has a contract with its men to pay 10 cents less than the district rate.

National President Penna, in a speech to the delegation advised this action, and President Michael Ratchford of the Ohio Miners' association, after hearing the discussion on the resolutions complimented the delegates on their action and said a similar movement would eventually have to be taken in Ohio.

FEAR OF HYDROPHOBIA.

A Mad Dog Runs Amuck and a Little Child Killed.

BEDFORD, Ind., Sept. 16.—An exciting mad dog hunt came off in this city last evening. The dog was run from cover to cover by excited citizens breaking through gardens and alleys, until finally killed. It was a large dog, in looks resembling a bloodhound.

The animal went mad suddenly and in its rounds it bit a child named Sears, badly lacerating the little one's cheeks and mouth. It also bit a number of dogs and cows. The excitement is high and threats are freely made against all dogs at large. The injured child is in a serious condition while the fear of hydrophobia almost paralyzes the parents.

Felled by the Same Disease.

RUSHVILLE, Ind., Sept. 16.—A sad death occurred here yesterday. One year ago Michael Davis, car inspector at the Pauhaudie station, was confined to his bed with consumption. In caring for him his wife, Eunice, contracted the disease, and for three months husband and wife have together hovered between life and death until the sufferings of Mrs. Davis were ended yesterday. Her husband, for whom she gave her life, has but a few days to live.

Indian Uprising in Mexico.

DEMING, N. M., Sept. 16.—Fifty Tomochie Indians yesterday surrounded the customhouse at Palomas, Mex., 30 miles south of this city. The officers repulsed them. Three of the Indians started for this town, two of whom were wounded. One was caught just south of town and is now under arrest in this city. It is said there are 300 Tomochie Indians in the Florida mountains, 15 miles south of here. The town is greatly excited.

Race Wire Tapped.

DETROIT, Sept. 16.—The Windsor race wire was tapped last Saturday in the vicinity of Baltimore and the foreign book at the track at Iron Hill, Md., was mulcted out of a large sum of money. The Western Union Telegraph company refuses to divulge the amount, but it is stated on good authority that the money taken is in the neighborhood of \$4,000. Detectives are working on the case.

New Telephone Company Proposed.

LAPORTE, Ind., Sept. 16.—Eastern capitalists are reported to be interested in the building of a long-distance telephone line in the states of Indiana, Michigan, Ohio and Illinois, in opposition to the Bell company, that will cheapen rates and also give better service. Sufficient capital is said to be behind this project to make a competing company a formidable rival.

Strike Among Coal Miners.

SULLIVAN, Ind., Sept. 16.—The miners of Jackson Hill have gone out on a strike, 200 strong, with the Allen Cave and other miners agreeing to join them. There is considerable excitement, and many threats are being made. President Knight is on the ground, but refuses to talk. The strikers refuse to endorse or assist Boyles and O'Leary, the alleged mine burners.

Walked Against the Train.

ANDERSON, Ind., Sept. 16.—Mrs. A. E. Linder, who was struck by a Big Four passenger train on Saturday last, died last evening. The deceased was a pioneer of Madison county, and 60 years old. Mrs. Linder was evidently lost in thought at the time of the accident, and she walked against the engine as it was passing, being struck by the drivers.

FRANTZ BOUND OVER

Held Guilty of the Murder of Bessie Little.

BUT FEW WITNESSES EXAMINED.

No Witnesses Introduced by the Defense. Children's Day at the Dayton Centennial—Canning Works Destroyed by Fire. Insane Through Politics—Miner Fatally Injured—Other Ohio State News.

DAYTON, O., Sept. 16.—The preliminary trial of Albert Frantz, charged with the murder of Bessie Little, took place yesterday in Judge Dale's court. The prisoner was represented by Judge Kreitzer and Attorney Van Skalk, and the state by Police Prosecutor McCann, County Prosecutor Kumer and Attorney Patterson. The courtroom was well filled.

Frantz looked pale and nervous when brought into court. He took a seat near his counsel, Attorney Van Skalk, and folded his hands, appearing to be in deep thought.

The court convened some time after the appointed hour.

The witnesses examined were Coroner Corbin, Chief of Police Farrell, Charles Phillips, who recovered the body; Mrs. Bell, the cashier of the Cooper House, where Miss Little boarded, and several newspaper reporters.

The attorneys for the defense did not go into a thorough cross-examination of any of the witnesses and at the conclusion of the state's evidence Judge Kreitzer announced that the defense had no testimony to offer. "That being the case," said Judge Dale, "I will hold the accused to answer to the grand jury on the charge of murder in the first degree."

Chief Farrell introduced but a small portion of the evidence against the accused. He is too shrewd an officer to show his hand at this stage of the proceedings. The evidence at the hearing was simply to connect Frantz with the crime and to insure his being held to the grand jury.

As soon as the hearing was closed Frantz was handcuffed and hurried into a waiting patrol wagon. He was then driven rapidly to the jail and as soon as he entered his cell he gave a sigh of relief. The streets were filled with people and it is believed that Frantz feared violence at the hands of the populace.

DAYTON'S CENTENNIAL.

Eleven Thousand Children Make a Beautiful Demonstration.

DAYTON, O., Sept. 16.—Despite unfavorable weather the school children's centennial parade came off yesterday, the column of 11,000 children moving from Monument avenue into Main and south to Fifth street, counter marching at both Fifth street and the monument, thus throwing three columns in close order into five squares' distance and filling it completely.

The scene was beautiful, as all the children carried flags and many handsome marching figures and elaborate costumes were to be seen. It is estimated that 50,000 people saw the parade. The G. A. R. and Sons of Veterans acted as escort to the column and great patriotic enthusiasm was displayed.

Just before the parade disbanded a drizzling rain began falling and in some instances the teachers had trouble controlling the children, who were many of them bareheaded.

Canning Works Burned.

BELLAIRE, O., Sept. 16.—The Don canning works, stables and two dwelling houses, located in the village of Burlington, seven miles east of here, burned last night. The loss is fully \$12,000; insurance, \$6,200. Cause not known. Several citizens were burned and somewhat bruised in their effort to extinguish the flames.

Driven Insane Through Politics.

CANTON, O., Sept. 16.—Lester Gero, a laborer, living in the southern part of the city, has been adjudged insane and will be taken to an asylum. Political haranguing unbalanced his mind and the evidence showed that he was possessed of the hallucination that he is about to be crucified on a cross of gold.

A Miner Crushed.

ATHENS, O., Sept. 16.—Theodore Haltermann, a miner, working in mine No. 2, near Gloucester, was fatally injured yesterday by a large piece of coal falling on his head, fracturing his skull. He has a wife and two children.

SPRINGFIELD, O., Sept. 16.—Edna Dilts, aged 10, fell 12 feet from a hay-mow yesterday and sustained fatal injuries.

BANK ROBBERS UNKNOWN.

The Affairs at New Orleans Remain in a Chaotic State.

NEW ORLEANS, Sept. 16.—The names of the confederates of Colombe in robbing the Union National bank out of \$600,000 are yet unknown. It is only a question of time when the examination of United States Bank Examiner Escott will bring them out. The books of the bank grow more and more chaotic.

At several times the thieves seem to have become frightened, ceased their robberies and tried to straighten up accounts, but this only makes the task of Mr. Escott more difficult, and he can only get down to the facts by going over each account item by item.

There are rumors of a confession, but if there has been one the United States officials have not given it out.

INFORMATION FROM AMERICA.

English Detectives Are Greatly Aided by the Pinkerton Agency.

LONDON, Sept. 16.—More attention is being paid to the details of the alleged dynamite conspiracy than any other subject, not excepting the situation in Turkey. Those who do not participate in the horror professed by the authorities over the diabolical details of the plot which they are claiming, with sensational impressiveness to have unearthed, find sufficient entertainment in the expressions of their scepticism.

A representative of the Associated Press has made some inquiries at Scotland Yard as to the methods pursued in shadowing the plotters and as to how it happened that the authorities were so well informed of the plans of the plotters in advance. It was stated there that the work had been done in the United States by the Pinkerton agency, who had for years forwarded every week, the fullest reports of every meeting of any revolutionary body in the United States, particularly in Chicago and New York. The espionage maintained on gatherings in those two cities is remarkably complete. There is a full file in Scotland Yard of all resolutions, documents, etc., pertaining to the gatherings and full descriptions of the members and their actions.

Though the action of the police in these cases was precipitated, owing to the heavy drinking and foolish talking of Tynan, there has been the greatest possible activity on their part since in order to round up the minor plotters, who have been touched by Tynan and the others. It is for this reason that Chief Inspector Melville, of Scotland Yard, who has been prominent before in the pursuit of dynamite plotters, and Inspector Quinn have gone to the continent and Inspector Daly, who is the political section of the Dublin police, is on his way to London.

Chief Inspector Melville will also direct the search for bombs of which the authorities allege numbers were manufactured at Berchem, near Antwerp. None of these has yet been discovered, however.

AN OUTLAW'S FATE.

Shot by a Deputy Sheriff While Resisting Arrest.

BIRMINGHAM, Ala., Sept. 16.—Bart Thresher, the noted Bibb county outlaw and jailbreaker, who a month ago killed Deputy Sheriff Bass at Blocton, was shot and killed last evening near Horse Creek, in Walker county, by ex-Deputy Sheriff C. H. Cole of Birmingham.

Cole was one of several men whom Thresher had vowed to kill in revenge for the death of Lige Thresher, a younger brother. Panther, another desperado, and pal of Thresher, was shot at the same time by Deputy Sheriff Bail, who was with Cole.

Thresher and Panther had been running an illicit distillery and making counterfeit money in Walker county. They made frequent visits to the towns to dispose of their different products. Last evening about 6:30 o'clock the officers accosted them in the woods, and while the desperadoes tried to get their weapons Cole and Bail fired. Two loads of buckshot were fired into Thresher's body, while Panther was shot with a repeating rifle. The two men were the worst in Alabama and large rewards were hanging over their heads.

CULVER CAPTURED.

A Fugitive From Justice in Ohio Arrested in Indiana.

TERRE HAUTE, Ind., Sept. 16.—Lawrence A. Culver, who was indicted at Logan, O., June 30, 1892, for wrecking the People's bank, of which he was president, and converting to his own use \$30,000 of its funds, has been captured here by the local police. One of Superintendent Meagher's friends on the Vaudalla "tipped off" the great mustached distinguished looking individual to him and he sent Detective McKee to meet the train on which the alleged bank wrecker was a passenger. Culver refused to acknowledge his identity and has shaved off the full beard he wore at the time of his flight. He has been a fugitive from justice for over four years. At home he had always stood high in business and social circles and was a prominent member of the first M. E. church. He is 61 years old.

Racing Half Way Round.

SAN FRANCISCO, Sept. 16.—The British ships Ditton and Cedarbank sailed out of port yesterday for a race, in distance more than half way around the world. Each is laden with wheat, the Ditton, Captain Moody, being bound for Queenstown, and the Cedarbank for Hull. Their captains, it is said, have put up quite a large sum on the sailing qualities of their ships, and a good deal of interest has been aroused over the race, so that news of either vessel will be watched with interest.

Money to Defend Tynan.

NEW YORK, Sept. 16.—The Irish National Alliance, which has its headquarters in the Potter building, held a secret meeting at the home of one of its members last night and arrangements were made to provide counsel to defend Tynan and Kearney, the dynamite suspects, and prevent them from being taken to England for trial. It is said that \$20,000 was subscribed at this meeting, and the fund will be increased to \$50,000.

Death of a Pioneer Physician.

HARTFORD CITY, Ind., Sept. 16.—Dr. H. H. Bennett of Montpelier, a pioneer physician of Blackford county, is dead of stomach disorder. He was a soldier during the war of the rebellion.

RETURNS FROM MAINE

Over a Hundred Towns Not Yet Heard From.

THE PLURALITY ABOUT 50,000.

The Republican Vote Has Exceeded Anything Ever Before Known in Maine, the Nearest Approach to It Being the 79,401 Received by Governor Hurlbigh in 1888. The Latest Returns.

AUGUSTA, Me., Sept. 16.—With over 100 towns to be yet heard from, the Republican plurality in Maine figures up 46,425, and will probably be 50,000, when all the towns are in. The returns are complete from 418 towns, cities and plantations in the state and from 10 of the counties.

The 418 towns heard from give Powers, Republican, 78,849; Frank, Democrat, 32,515; Ladd, Prohibitionist, 2,746; Bateuan, People's, 1,731; W. H. Clifford, National, 576. Over 82,000 Republican votes, it is estimated, were thrown and about 33,000 Democratic. The Republican vote has exceeded anything ever before known in Maine, the nearest approach to it being the 79,401 received by Governor Hurlbigh in 1888.

Boutelle Ahead of the Ticket.

BANGOR, Me., Sept. 16.—One hundred out of about 204 towns and plantations in the Fourth district give Powers 16,153 and Frank 6,848. This indicates a Republican plurality of between 13,000 and 14,000 in the district. Boutelle's vote for congressman is slightly ahead of the vote for the head of the ticket. Returns for Penobscot county are not complete, but 37 out of 64 towns give Powers 7,034; Frank, 3,436.

CRONIN MURDER RECALLED.

Rumor That Alexander Sullivan Has Been Arrested in Paris.

NEW YORK, Sept. 16.—The World this morning says: It was rumored late last night that Alexander Sullivan of Chicago, whose name figured so conspicuously though indefinitely in the Cronin murder case, had been arrested in Paris at the instance of the English police.

In connection with the rumor The World's Chicago correspondent telegraphed the following:

"Alexander Sullivan went abroad two months ago to Carlsbad, so it is said. Saturday, last, his wife, Margaret Sullivan, was stricken with apoplexy and now is very ill. She said that he was to have sailed today from Bremen. She can not be seen. Nothing definite is known here, though it is rumored that Sullivan is in trouble. The belief is that Mrs. Sullivan's attack was caused by some distressing news contained in a cablegram."

"It is said by Irishmen here that Sullivan would not have gone into any dynamiting scheme now. It is possible that he may have been arrested on the theory that he was an Irish invincible, but there is no evidence that he was ever remotely connected with the Invincibles."

VESSEL BURNED AT SEA.

Twenty-Six Sailors May Have Perished in Milwaukee.

NEW YORK, Sept. 16.—Reports made by three vessels that arrived yesterday arouse the gravest fears that the three-masted ship State of Maine, that left here on Sept. 4, with a cargo of case oil for Shanghai, has been burned at sea and that all on board, some 26 men, have perished.

The steamer Adria, from Port Antonio, reported that about 240 miles northwest of Hatteras, on Sept. 9, she sighted a burning ship, which had evidently been abandoned. Her deck-house was on fire and flames were shooting up through her hatches. All her lifeboats were missing, indicating that her crew had taken refuge in them.

The Norwegian bark Viva, which was turned into this port yesterday disabled by a hurricane, sighted the burning craft on Sept. 11 about 200 miles east by southeast of the Hook.

The State of Maine, Captain A. D. D. Nickels, carried 56,000 cases of oil for the Standard Oil company.

FIRE IN A LIVERY STABLE.

Two Men and Twenty-Five Horses Roasted Alive in Milwaukee.

MILWAUKEE, Sept. 16.—Two men and 25 horses lost their lives yesterday morning in a fire which partially destroyed Albert Manger's livery stable. The fire was discovered shortly after 1 o'clock. The flames spread so rapidly that only three men and a few horses were able to get out of the building.

Fifteen minutes after the firemen reached the scene an unknown man, burned so badly he can not recover, was taken out. At 2 a. m. the body of another man was taken from the ruins. His name and that of the man who was fatally burned are not known, as they were employed but a few days ago.

Outrages in South Carolina.

ATLANTA, Sept. 16.—A special from Pickens, S. C., says that news has just reached there that on the night of Sept. 13 incendiaries fired John L. Trotter's dwelling, 10 miles north of Pickens. As Trotter ran from the burning building he was shot in the leg. Soon after the same party set fire to Frank Ferguson's barn and told him if he put his head out of the window his head would be shot off. Illicit whisky was at the bottom of the trouble.

Gold in its last analysis is the sweat of the poor and the blood of the brave.—W. J. Bryan.

Every man knows that if gold is forced up and prices down wages must eventually follow prices.

Dr. Otto ABRANDT, the great German bimetalist, says the American producer who fails to vote for Bryan cuts his own throat.

WHERE is there a trust or monopoly in this country that is not an earnest and active financial supporter of William McKinley?

If the mints are opened and silver is freely coined, money cannot be cornered, nor can corporations and speculative combinations control its circulation, as they do now.

If there were free coinage all the American silver would go to the United States mints except what would be required in the arts and for export. This would compel all Asia and all Europe to pay our mint price for what they get.

The act of 1873 dropped the silver dollar from the standard coinage of the country, and whether this act be considered a crime or not there is no doubt of its far-reaching and disastrous consequences, truly remarks the Louisville Democrat.

Of all conceivable systems of currency, that is assuredly the worst which gives you a standard steadily, continuously, indefinitely appreciating, and which by that very fact throws a burden upon every man of enterprise and benefits no human being but the owner of fixed debts in gold.—Hon. A. J. Balfour.

The value of the wheat product of the country in 1880 was \$474,201,850. Its value in 1895 was \$237,938,998. Yet there were 31,416,921 more bushels produced in 1880 than in 1895. The Republican orators shout that the decrease in prices is caused by "overproduction." An exchange wants them to please explain the above figures.

Statistics show that the United States produces about five-sixteenths of the silver bullion of the world. England and her colonies produce little silver, but have between one-fourth and one-third of the world's stock of coined silver. In whose interest is the price kept down, the seller's or the purchaser's? inquires the Louisville Democrat. No wonder England opposes free coinage.

HON. W. A. BYRON.

Bracken County's Brilliant Young Republican Orator Comes Out For Bryan and Free Coinage—Other Converts.

Hon. W. A. Byron, the silver-tongued orator of Bracken County, who has always affiliated with the Republican party has declared his intention to vote for Bryan. Mr. Byron is an influential citizen of Bracken and has many warm friends in this section.

Mr. J. E. Dye, another Republican and ex-Magistrate of Bracken, will vote for Bryan and Sewall, and will make a speech Saturday night in Augusta.

And another, Mr. J. B. Hamilton, Magistrate of the Milford district and a lifelong Republican, will vote for the Chicago nominees.

The influence of these gentlemen will no doubt add many more to the list, and old Bracken will roll up a good old-time Democratic majority.

Mr. Byron was the Republican nominee for Commonwealth's Attorney a few years ago against Mr. Sallee.

A NOTED LECTURER

Secured by the Local Young Men's Christian Association—Rev. B. Fay Mills to Be Here September 30th.

The local Young Men's Christian Association are glad to announce to the public that they have been successful in arranging for a lecture by the noted speaker and evangelist, Rev. B. Fay Mills. He will speak on the subject, "What Must Society Do to Be Saved?"—or the problem of social reform—at the Washington Opera House on Wednesday evening, September 30th.

Undoubtedly a large number of our citizens have heard more or less about the marvelous preaching and work of this leading evangelist, and the mere mention of his coming ought to be sufficient to occasion at once a hearty and general interest in the prominent event. The Rev. B. Fay Mills, although still a young man, has for ten years been one of the most prominent figures before the public. He has spoken to the largest audiences ever assembled in America, having addressed probably 5,000,000 of people, in all sections of the country. In Cincinnati, Cleveland, Columbus, St. Paul, Minneapolis, Milwaukee, Omaha and many other larger cities, great business houses have closed their doors for hours in the daytime to allow employers and employees to listen to his burning words. Great desire has been expressed to hear him in places to which he could not go on account of pressure of engagements, and he has sometimes declined 1,000 invitations in a few weeks.

He has never before consented to appear upon the lyceum platform, but has now agreed to deliver a limited number of lectures in response to the pressure upon him from cities where it is possible for him to give one address, but not to remain for a longer time. His lectures are not distinctly of a religious nature, unless especial request is made to that effect, but are sparkling with humor, bright points and elevating wit, though leaving the most ennobling impressions on his audience.

Further announcements relative to the sale of tickets will be made in these columns in a few days.

Miss Addie Vancey has opened a select school in the Oddfellows Hall for the small children, with a good attendance.

Mrs. Mary A. Collins, of Bourbon, came in last Saturday to visit her daughter, Mrs. J. A. Jackson, at the Stonewall House.

Healthy, happy children make better men and women of us all. A little care and a little planning before birth is often more important than anything that can be done after. On the mother's health and strength depend the life and the future of the children. A weak and sickly woman cannot bear strong and healthy children. Most of the weakness of women is utterly incurable. Proper care and proper medicine will cure almost any disorder of the feminine organism. Dr. Pierce's Favorite Prescription has been tested in thirty years of practice. It is healing, soothing, strengthening. It is perfectly natural in its operation and effect. By its use, thousands of weak women have been made strong and healthy—have been made the mothers of strong and healthy children. Taken during gestation, it makes childbirth easy and almost painless and insures the well being of both mother and child. Send 21 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 100s page "Common Sense Medical Adviser," profusely illustrated.

A Very Helpful Talk by Mayor Cox Last Sunday—The Work Progressing.

At the men's rally on Sunday afternoon, the leader, Mr. William H. Cox, gave a very helpful talk on the text from First Corinthians, "All Things Are Yours and Ye Are Christ's."

Several of the young men followed him with brief, pointed remarks, filling in the hour to the profit of all present. The singing, with the able assistance of Mr. Robert Hoedlich as organist and Mr. Lee Gray as clarionetist, was also a most enjoyable feature of the services.

Next Sabbath afternoon Mr. H. E. Rosevear, of Louisville, will be the speaker.

The addition of fourteen newspaper files on the reading tables in the association hall greatly increases the attractiveness of the room.

To-day Secretary Canfield will go to Augusta, at the request of the State Secretary, to consult with the young men of that town in reference to the possible establishment of a Y. M. C. A. work.

LOUISVILLE TOBACCO MARKET.

Prices on Good to Fine Burley Sustained Fairly Well Last Week—Other Grades Irregular.

The following is furnished by Glover & Durrett, of the Louisville Tobacco Warehouse:

Sales on our market for the week just closed amount to 3,063 hogsheads, with receipts for the same period 1,658 hogsheads. Sales on our market since January 1st amount to 126,079 hogsheads. Sales of the crop of 1895 on our market to this date amount to 121,401.

Prices for the good to fine burleys and also for the color grades were sustained fairly well. The common nondescripts and off-colored sorts were irregular and a little easier. The weather has been fine for cutting and housing the crop which will be practically finished this week.

The following quotations fairly represent our market for burley tobacco (1895) crop:

| | |
|---------------------------------|-------------|
| Trash (dark or damaged)..... | 1 00@1 50 |
| Common color trash..... | 2 00@3 50 |

BRYAN.

Ten Thousand People Greet the Eloquent Democratic Nominee.

Braved the Elements and Stood Over an Hour in the Rain and Mud.

What a Crowd Would Have Turned Out Had the Weather Been Fine?

Wild Scramble to Shake Hands With the Next President.

Democracy's Day in Old Maysville—Mr. Bryan's Speech.

At a low estimate 10,000 people stood in the mud and driving rain at the intersection of Third and Market streets for more than an hour last night to greet and hear Hon. William Jennings Bryan.

It was the largest political gathering in the history of the city.

And what would it have been if the weather had been at all favorable?

The day dawned with dark clouds scudding across the sky, and before 8 o'clock a heavy rain storm set in. This was followed by frequent showers all through the day, and the weather could not have been more unfavorable for an out-door meeting.

But the rain didn't keep the people away. They began arriving early, in buggies, carriages, omnibuses, on horseback and steamboats and trains.

The first special came in over the C. and O. shortly after noon with the Dover and Minerva Bryan Clubs. They numbered 400 or 500, and headed by Captain James Wilson and Fluharty's band they marched up Second to Market and then to the grandstand. Shortly afterwards a Cincinnati special with ten coaches packed and jammed pulled in. On board were the Silver Club of Cincinnati. Two special trains from Huntington followed soon afterwards, and these were also packed and jammed with enthusiastic crowds. By 4 o'clock Market street, from Front to Third, with its mass of humanity presented a scene seldom witnessed in old Maysville.

The morning L. and N. train brought in over 200 people, and the special came in late with six coaches packed full. This special was delayed by an accident and had to side track at Nepton to allow the Bryan special to pass it.

The Silver Wave brought down over 300 people from Vanceburg and way points, and the Rome-Portsmouth packet also had a big crowd. The M. P. Wells came in from above at 10 a. m. with 150 people and then went on to Augusta and returned in the afternoon with 150 more.

Some parties in the afternoon estimated the crowd as high as 15,000. With good weather the attendance would have been twice what it was.

Col. W. LaRue Thomas, nominee for Congress, opened the speaking at the Third and Market street stand about 2:30 o'clock, and was repeatedly applauded and cheered. He was followed by Hon. G. A. Cassidy and Mr. A. D. Pumphrey, of Fleming, the venerable Judge Joseph Alexander, of Sharpsburg, Hon. James P. Allen, of Fleming, and Congressman Al Berry, of Newport, and Hon. W. A. Byron, of Brooksville. As is well known, the latter has been one of Bracken's leading Republicans for years. He was their nominee two or three years ago against Commonwealth's Attorney Sallee, and has lead the G. O. P. in several campaigns in Bracken. He made an enthusiastic speech for Bryan and free

coinage, and was enthusiastically cheered and applauded. Those who heard him pronounce his speech one of the best of the day. His conversion to the cause of Bryan and free coinage has caused a big sensation in political circles in Bracken County.

During the afternoon the court house was crowded with ladies and gentlemen who were entertained with speeches by Hon. Chilton A. White, of Georgetown, O., Col. A. O. Stanley, of Flemingsburg, and others.

Before 6 o'clock, the crowd began assembling at Third and Market, all eager to get close to the stand where Mr. Bryan would speak. In a short time the stand was surrounded by 7,000 or 8,000 people, and then a heavy rain began falling. The crowd didn't budge, however. For over an hour, packed almost as close as sardines in a box, they stood in the rain and impatiently waited the coming of Bryan. A mighty shout went up when the carriages finally appeared. It required a squad of mounted police to force an opening to the stand, and then it was a hard matter to do so. All were clamorous to shake hands with "the next President." Mr. Bryan finally reached the stand, and was introduced by Col. W. LaRue Thomas. He said:

I must ask you to help me speak by keeping perfectly quiet. If every one of you will keep still then we will have no noise except what I make. [Laughter.] Nothing has impressed me more in this campaign.—[Every minute that you take shortens what I can say, my friends.] Nothing has impressed me more in this campaign than the intense interest which the people are manifesting. [Applause.] When people will come a long distance and stand out in the rain to listen to a political speech it shows that they are deeply interested in the issues of the campaign. But you are right, my friends, in feeling that you have a personal concern in the result of the present contest. You cannot arouse the interest of the people until you bring the question home to each individual. If you say to a man that somebody's house is burning without connecting him with the fire he may feel unconcerned, but if you say to him "your own house is on fire" and your own family in danger, he at once becomes an interested party. [Applause.] If you on this side are anxious to hear just stop for a moment.

I was trying to call attention to the fact that in order to interest one in a subject it must be brought home to him. I want you to understand that this money question is one that comes home to every one of you; and you have an interest on one side or the other, and you have a right to make your ballot protect your interest as you understand it. The financier assumes the right to use his ballot to protect his interests as he understands those interests, and you who instead of exchanging money are producing wealth and exchanging that wealth for money, have a right to use your ballot to secure a sufficient amount of that money in the channels of trade to do business with. You can make money scarce or plentiful by legislation. There is no doubt of it that there is no money except that which the law creates. If you want some corn you go out and produce corn, but if you want some money you cannot go out and create money, because the law will put you in the penitentiary if you attempt to bring one dollar into existence by your own act.

Now, my friends, if the government alone can provide money for the people then it is the duty of the government to provide enough money for the people. [Applause.]

If you think you ought to have more money you should elect Representatives who believe in more money instead of less money. It is a question which you may settle for yourselves. If the laws are made by those who profit by having money, those laws will provide for dear money by providing for scarce money. You can make money dear whenever you make it scarce, and the people who want money dear will make money scarce in order that money may be dear. While a dear dollar is a good thing for a man who has dollars and buys something with those dollars, dear dollars are a bad thing for a man who owes dollars. When a man owes dollars he must sell property in order to get those dollars to pay his debts with. [Applause.]

We believe in the free coinage of silver because it is necessary in order to have an increased amount of money. There is not gold enough in the world to furnish the standard money needed for the world's business. The amount of gold used in the arts is increasing all the time. When you take the amount of gold necessary to fill decayed teeth, to make engagement rings, and to use in the Keeley cure, it does not leave gold enough to do business with. [Laughter.] If there is not gold enough then some other metal must be added to it, and silver has been the companion to gold as a money metal from the beginning of the world. During all these years down to 1873, gold and silver together have formed the standard money of the world. And from the beginning of our government in this country down to 1873, there never was a day but that silver could be taken to the mint and converted into money on the same terms that gold could be taken there; and all we ask is that we shall reinstate silver as it existed before 1873. We are not afraid of a flood of money. I say there is no danger that there will be more of gold and silver than we can use in the business of the world.

When any man who has silver bullion can take

his bullion to the mint and have it converted into money for \$1.29 an ounce and use that money to pay taxes, and pay debts and buy what he needs, then no one will sell that bullion for less than \$1.29.

But my time is up. I have only time to suggest a few thoughts for your consideration. I beg you to take this question and study it. Then let your ballots represent what you think will be best for your own families, your fellow men, your own good. I have occupied all the time that I have. I go from here to catch a train at Lexington, and it is only a short time that I can be with you. I am sorry that it could not be longer. I have come a long distance out of my way to say even these few words to you.

At the close there was another rush to shake hands with Mr. Bryan. People climbed over the railing and up on the stand, and pressed about him. There was a perfect crush, and when he finally reached his carriage and the horses were started, a half dozen or so people were hanging on to the vehicle.

At the depot Mr. Bryan stood on the steps of the coach, and shook hands and chatted with the crowd. "Look here, young man, I shook hands with you once," he remarked to one who pressed forward. "You must be a repeater," he added, laughingly; "but then this kind of repeating doesn't do any harm."

NOTES.

Editor Thompson, of Augusta, was among the newspaper men present.

Postmaster Carlisle, of Covington, was among the prominent men on the platform.

Prof. Frost came in with Portsmouth's 500. The Professor's many friends were glad to see him.

Councilman J. B. Linneman, City Assessor Whitney and County Assessor Middendorf, of Covington, were present.

Hon. John C. Draddy, of Newport, and a party of 100 came up in a special coach. Most of them are Republicans who intend voting for Bryan.

The bands from Brooksville, Dover, Manchester and Vanceburg helped to enliven the day with music. And Maysville's famous band was right in it from start to finish.

Mr. Horace Dunbar, the handsome proprietor of the Gibson House, Cincinnati, who was a schoolmate of Mr. Bryan's, was here last night to see and hear his friend.

While Mr. Bryan was shaking hands with the crowd at the depot, Miss Blackburn, Mrs. Tarvin, Mrs. Woodson and the other ladies of the party were handing out flowers to the people.

ELDRED GROVES.

His Dead Body Found in the River at the Foot of Sutton Street This Morning.

Mr. Eldred Groves, of Mayslick, was found dead in the river at the foot of Sutton street early this morning. His body was only partly submerged and was resting on one of the cables that hold the coal fleet at that point.

He attended the Bryan meeting yesterday, and was to spend the night here with Sheriff Jefferson. The supposition is that he wandered over the viaduct and in the darkness and confusion got into the water and drowned. No marks of violence were found.

He was a bachelor, sixty-five years old, was Sheriff of the county at one time, and had served as Democratic precinct Committeeman. He leaves many relatives.

His remains were removed to Melhvain & Humphreys' undertaking rooms. Coroner Roe will hold an inquest this afternoon.

Railroad That Don't Pay.
WABASH, Ind., Sept. 16.—G. B. Swetser, receiver of the Chicago, Indiana and Eastern railroad, has stopped all trains and indefinitely suspended the operation of the road, which has been running at a loss. He has asked for a court order to sell the rolling stock and pay pressing claims. The line was built from Fairmount to Matthews three years ago, and the panic stopped the work.

Japan Wants Our Beef.
KANSAS CITY, Sept. 16.—The local packing house of Armour & Company has received an order direct from the Japanese government for 18 carloads of corned beef. The order is one of the biggest ever received here and will be ready for shipment in about 10 days. This immense shipment of beef is believed to be for use in the Japanese navy, although a positive statement to that effect is not obtainable.

One Small Boy Kills Another.
LITTLE ROCK, Sept. 16.—In Mineral township a 12-year-old Polish boy named Kucinski killed a 4-year-old child of Andrew Zawloski by striking it on the head with a club. He then dug a shallow grave, buried his little companion and fled.

Berlin, Sept. 16.—Owing to the collapse of a gangway landing at Buesingen, 45 persons were thrown into the Rhine, three were drowned, five were pulled out of the water in a critical condition and it is feared that others are missing.

TYNAN'S INTENTIONS.
Balmoral Castle to Be Blown Up During the Czar's Visit.

LONDON, Sept. 15.—A report is in circulation here that it was the intention of Tynan, the notorious "Number One" now under arrest at Boulogne, to perpetrate an outrage at Balmoral castle during the visit of the czar to Queen Victoria at that place. The rumor is probably due to the story told by Tynan during his tour of the continent that he was the courier of the queen, entrusted with an autograph letter from her majesty to be delivered to the czar at Copenhagen.

Among the papers found in possession of Bell when he was arrested at Glasgow are several telegrams from Tynan, in one of which Bell is instructed to "come to Boulogne and leave the rotten stuff (meaning the explosives) behind." After being remanded in the police court at Glasgow yesterday, Bell was removed to jail and locked in a cell. He immediately became greatly excited and a physician was summoned to attend him. The Scotland Yard officials have directed the Glasgow authorities to send Bell to London. Bell had \$160 on his person when arrested.

The police here now admit that the man arrested at Rotterdam, whose name was first given as Wallace, is, in fact, John F. Kearney of New York. Tynan's mother and her son, who are living at Kingstown, near Dublin, declare that they never knew of his movements and that they supposed he was canvassing for the Republican party in the United States. His mother was preparing to go to New York to see him.

A dispatch from Boulogne to the Associated Press says that Tynan spent Saturday evening in the bar of the hotel drinking and standing for drinks freely and talking politics. He retired to bed intoxicated at 2 o'clock in the morning. He was still under the influence of drink when he was arrested and he assumed his innocence until Detective Inspector Walsh recounted him all his recent movements, when he admitted his identity. The formalities of extradition in Tynan's case will occupy a fortnight. The secretary of the Great Britain Amnesty association, speaking of the arrest of Tynan, says that they will afford Tynan means for his defense, but that he will have no sympathy if he has been guilty of any recent conspiracy.

SAILED FOR HONG-KONG.
Li Hung Chang Takes His Departure For His Home.

VAN COUVER, B. C., Sept. 15.—Li Hung Chang rose at 5 o'clock yesterday morning and was very busy until the departure of the steamer for Hong-Kong, receiving deputations of his countrymen and the civic and provincial officials. He discussed railway construction with the members of the board of trade, stating that much material would be brought to China from Canada for railroads about to be constructed in China. He thanked the mayor for the protection extended to Chinese, remarking that as he understood Canada wanted population, the Canadian government should welcome Chinamen. As the steamer left the wharf the Chinese started a fusillade of fire crackers, which was kept up for over an hour.

PROTECTION AT CONSTANTINOPLE.
United Action of Guardships With the Probable Reinforcement of Warships.

CONSTANTINOPLE, Sept. 16.—The ambassadors of the powers held a meeting yesterday in order to lay out a plan for measures for the protection of the different embassies and the foreign population generally in the event of a renewal of disturbances here. The plan is understood to include the united action of the guardships of all the powers, each ship being assigned a certain position, and men to be landed at a given signal to protect threatened points.

The defenses of the embassies will also, it is rumored, be considerably strengthened by an increase in the number of men now guarding them and by other precautions which will tend to make them capable of resisting attack for a considerable time. It is also reported that, in possible contingencies, a number of additional warships of the powers will reinforce the guardships now doing duty in these waters.

AN IMPORTANT DECISION.
Delay Is Excusable When It Is Caused by Strikers.

ST. PAUL, Sept. 16.—That delay is excusable when caused by strikers intimidating those who would take their places is the conclusion of the United States circuit court of appeals in the case of the Empire Transportation company, appellants, vs. the Philadelphia and Reading Coal and Iron company, appellee.

A shipment of coal could not be unloaded within the time specified in the charter and damages were asked, but the court holds the delay caused by "the strike of the employees of the charterer without grievance or warning and the organized and successful effort on their part to prevent by threats, intimidation and violence, other laborers who are willing to do so, from discharging a vessel" is excusable and the charterer is not liable for damages.

Pre-Arranged Collision.

WACO, Tex., Sept. 16.—The pre-arranged collision which has been so extensively advertised took place yesterday at Crush, Tex., 14 miles north of this place, on the Missouri, Kansas and Texas railway. There were six cars behind each engine and the wreck of both engines, as well as seven cars, was complete. Nine of the spectators were badly injured by falling wreckage, two probably fatally. It is estimated that 50,000 witnessed the collision.

Brush With the Dervishes.

LONDON, Sept. 16.—The Chronicle has a dispatch from Fereig, the advance post of the Nile expedition, saying that the cavalry reconnaissance toward Kabodi yielded the first brush with the party of dervishes who were looting a deserted village. The cavalry killed six of them, including the leader. The whole party tried to cross the river in boats, but were captured by friendly natives, including the boats and their crews.

Sailors Suffering From a Peculiar Disease.

NEW YORK, Sept. 16.—The Norwegian bark Themis, Captain Tobiasen, from Progresso for Liverpool, has put into this port with nearly all of her crew sick with a disease resembling scurvy or beri beri. The Themis was 10 weeks on the Mexican coast and the supply of water obtainable was of a very inferior character. For nearly four months the entire crew had but a scant supply of fresh provisions.

Was Not in the Three-Mile Limit.

OTTAWA, Sept. 16.—The American schooner Frederick Gearing was seized some time ago off the Nova Scotia coast for violation of the fishery law, having been caught inside the three-mile limit. She was condemned by the court and the department of justice has now been notified that the owners will appeal to the supreme court of Canada as they claim that she was not within the three-mile limit at the time.

BLOOMING, Miss., Sept. 16.—General Joseph R. Davis, nephew of the late Confederate president, Jefferson Davis, died here last night.

The Ashland School for Girls,
ASHLAND, KENTUCKY.

An attractive home and day school for girls of all ages. Will open September 30th, under the management of an accomplished principal assisted by able teachers. A wide range of subjects will be taught, including Languages, Literature, History, Science, Mathematics and the common branches, and the best instruction will be given by superior college-trained women. A distinguished graduate of the Royal Conservatory in Leipzig, will teach Piano and Vocal Music. Teachers and boarding pupils will live under one roof and form one family, thus affording the pupils an unusual opportunity for the best social culture. The home will be under the care of a gifted woman as housemother, who will make it a delightful home. Under the auspices of the Diocese of Lexington, the Rev. Lewis W. Burton, D.D., being the spiritual head of the School, its influences will be positively Christian but not in any narrow sense sectarian in sympathy with the times the charges will be lower than those of any school of its class, viz: For boarding pupils, \$50 a term; day scholars \$8 to \$12; music pupils, \$20. Three terms in a school year. For descriptive circulars, address: H. N. HILLS, Lexington, Ky.

Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. Afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.
